

Printable wall art size chart

Common portrait ratios and paper sizes. Reverse width and height for landscape prints. Inch sizes below are general references, not Inkla presets.

COMMON INCH SIZES

Ratio	Print sizes (inches)	Example at 300 PPI
2:3	4 x 6, 8 x 12, 12 x 18, 16 x 24, 20 x 30, 24 x 36	12 x 18: 3,600 x 5,400 px
3:4	6 x 8, 9 x 12, 12 x 16, 18 x 24	12 x 16: 3,600 x 4,800 px
4:5	8 x 10, 12 x 15, 16 x 20	8 x 10: 2,400 x 3,000 px
5:7	5 x 7, 10 x 14	5 x 7: 1,500 x 2,100 px
11:14	11 x 14 (its own ratio)	11 x 14: 3,300 x 4,200 px

A-SERIES PAPER

Size	Millimetres	Approx. pixels at 300 PPI
A4	210 x 297	2,480 x 3,508
A3	297 x 420	3,508 x 4,961
A2	420 x 594	4,961 x 7,016

Pixel calculation: inches x PPI. For millimetres, divide by 25.4 first. Values above are rounded to the nearest pixel. A-series proportions are approximately 1:1.414; A4 is not the same shape as 8 x 10 inches.

Before printing: check the crop, source detail and printer requirements. Changing the PPI number alone does not add detail. Inspect the output and make a test print.

Inkla Main 0.1.0: A4, A3 and A2 poster presets; separate A6 and A5 folded card presets. Full guide: inklastudio.com/guides/printable-wall-art-sizes
